## Environmental Consultants (Pty) Ltd

### About SAT Environmental Consultants

SAT Environmental Consultants is a Level 1 BBB-EE Company. The Managing Director is a Professionally Registered Environmental Scientist (Pr.Sci.Nat) and a Registered EAP with over 20 years of experience in both the Government & Private Sectors. The Managing Director currently serves on the International Association of Impact Assessment, South Africa (IAIAsa) as a KZN Branch committee member and is an Assessor for the Environmental Practitioners Association of South Africa (EAPASA). He has gained valuable skills by attending an International Training Programme in Planning and Managing Urban Environments in India. SAT Environmental has undertaken projects for leading role-players in the industry and has achieved outstanding project approvals.

**Mission**

SAT Environmental Consultants is passionate about offering clients with cutting-edge technological solutions by adding value to projects that will assist in decision making whilst promoting environmentally sustainable projects.

**Values**

The company subscribes to a Professional Code of Conduct as per the South African Council of Natural Scientific Professions (SACNASP) and the Environmental Assessment Practitioners Association of South Africa (EAPASA).

**Vision**

The Vision of SAT Environmental Consultants is to empower communities, industries, developers and corporates to minimize the impact on the environment by providing educational training programmes and environmental solutions based on compliance with latest Environmental Laws and by ensuring that a career path can be developed and sustained for all individuals graduating into the industry.
